OBJECTIVE

To find a position in a high-performance-team which I can develop my skills and work as a programmer or system analyst.

PROFILE

Software developer with 6+ years of hands-on experience in web, services, mobile and desktop development. In addition I worked with large companies, small business and start-ups. Expertise in high-end software, ERP and team development. I have been able to learn quickly and efficiently new development skills.

EXPERIENCE

Director, Gandarez ME, Sao Paulo, Brazil, November 2012 – Today

- System Analyst responsible for all solutions that have been developed.

Android developer, 2be!creative, Montreal, Canada, April 2012 – November 2012.

- Responsible for all android products and applications that had been developed.
- This job helped me to improve my mobile skills. It has also helped me in working on android platform.

Programmer Analyst, Landz Tecnologia, Sao Paulo, Brazil – August 2010 – April 2012.

- Took care of the software developed, dealt with clients, taught how the software (ERP) works to new employees and also shared knowledge.
- Taking care of the software gave me the opportunity to improve my .Net skills and I have also improved team-working. The use of Scrum helped me to plan my activities and meet deadlines.

Programmer Analyst, Accenture Solutions, Sao Paulo, Brazil – April 2008 – August 2010.

- I looked after the client's software, dealt with clients, reported weekly to my manager, led a small group of two coworkers, met deadlines.
- Meeting deadlines helped me to keep my tasks organized. I have also maximized my leadership. In this job I was able to work in a bunch of

language programming, such as C#, Java, Visual Basic 6, Shell Script on Linux, Cobol, etc.

EDUCATION

- Universidade Paulista (UNIP), Sao Paulo , Brazil – Bachelors in Computer Science, 2003 - 2007.

LANGUAGES

- Good working knowledge of English
- Excellent working knowledge of English

SKILLS

- MySql, SqlServer, Informix, Access, Sybase, Oracle, DB2
- HTML/DHTML/XHTML/CSS, AJAX, XML, SQL, JavaScript, Visual Basic 6, Java, Android development, C/C++, C# (.Net 1.1 to 4.0).
- Some expertise in microcontrollers, such as Arduino.

INTERESTS

- I enjoy listening to music, surfing, climbing, and practice motocross.
- I have participated in team sports, such as soccer and muay thai.
- I have been interested in traveling to different countries. I have recently traveled to Canada and United States as well.
